January 13, 2014

It is my great pleasure to share our roofing experience with the world. The roof on our building was completely worn out and Washington Roofing came to our rescue.

Within a couple of weeks of contacting Washington, both John and Chuck came to Follett and met with our Board of Education and promised us a start date. Construction started on that date and the crew stayed until the job was completed. Important to our project was the way the crew fit with our community. They represented Washington Roofing in every way that made the whole operation first class.

I proudly recommend Washington Roofing and use every positive adjective that comes to mind.

Respectfully,

George Auld,
Superintendent
